Dryden Family Medicine offers discounts to patients and their families who are having financial hardship.

Please see the notices in the waiting room, on the website <http://www.drydenfamilymedicine.com> or ask the receptionist for more information about our discounted fee schedule for patients with financial hardship.

Our discounts are based on family size and family income.

Patients whose family income is less than or equal to the Federal Poverty Guidelines will be charged no more than \$5.00 per visit.

Patients whose family income is between the Federal Poverty Guideline and twice that Guideline will be charged on a sliding scale.

Patients who have been charged according to the sliding scale appropriate to their situation, with a balance due over \$50 and overdue by 90 or more days may be sent to collections.

If you think you qualify for a discount you will need to speak with our practice administrator and fill out an application. The practice administrator will need to see either a copy of your last year's Federal tax return or a copy of your 3 most recent pay stubs to verify eligibility.

The discount lasts for one year from the time we accept your application. You must re-certify every year.

We do not discriminate based on: ability to pay, race, color, sex, national origin, disability, religion or sexual orientation.

If your income qualifies you for our discount, please call 607-844-8181 and ask to speak with our practice administrator.
